## Full Stack Web Developer

### PROFESSIONAL SUMMARY

Resourceful Full Stack Web Developer proficient in MERN stack. Collaborative team player experienced in designing and developing scalable web applications. Strong problem-solving skills and attention to detail ensure reliable and stable applications. Proactively stays updated with the latest web development trends and technologies to enhance the development process.

### WORK EXPERIENCE

#### Self-Employed

Self-Employed WordPress and SEO Expert | June 2019 - July 2020

#### Job responsibilities:

- Implemented strategies to enhance website ranking through effective backlinking
- Optimized web content for search engines, improving site visibility
- Managed and executed auto-blogging systems to streamline content creation and updates

### PROJECTS

#### 1. QuizMe | |

React | Redux | Express.js | Node.js | MongoDB | MUI

- Developed the admin panel, implementing CRUD operations for quiz and question management.
- Worked on both front-end and back-end aspects, integrating these components to ensure a seamless user experience.
- Designed distinct interfaces for admins and users, with actions available based on role permissions.

#### 2. Samrat Hospital | |

React | Redux | Git | Tailwind CSS | Chakra UI

- Developed an online platform for booking appointments with doctors
- Implemented search functionality to filter and sort doctors based on price and availability
- Designed and implemented a user-friendly booking form for easy appointment scheduling

#### 3. Wonder Wave Travels | |

HTML5 | JavaScript | CSS3 | Bootstrap

- Developed the 'Packages' module, responsible for showcasing various travel packages.
- Enhanced user experience by integrating features like pagination, sorting, filtering, and package search on the packages page.
- Implemented user and admin registration and authentication functionality for secure access to the platform.

### ACHIEVEMENTS

- Construct Week Winner,  
Masai School
