Mohd Asif

Full Stack Web Developer

PROFESSIONAL SUMMARY

Results-driven Full Stack Web Developer proficient in MERN stack, with expertise in developing efficient server-side APIs using Node.js and Express.js. Skilled in creating dynamic web applications using React.js and ensuring seamless integration between frontend and backend components. Strong problem-solving skills and dedication to software excellence, coupled with effective communication and collaboration abilities. Experienced in RESTful API design and development, with a deep understanding of version control systems like Git.

PROJECTS

1. Wonder Wave Travels | |

HTML5 | JavaScript | CSS3 | Bootstrap

- Developed the 'Packages' module responsible for showcasing various travel packages using *HTML5*, *JavaScript*, *CSS3*, and *Bootstrap*.
- Implemented API integration to fetch travel package data from the backend.
- Enhanced user experience by integrating features like pagination, sorting, filtering, and package search on the packages page.

2. Samrat Hospital | |

React | Redux | Git | Tailwind CSS | Chakra UI

- Doctor Details Page: Designed and implemented a page to display detailed information about each doctor, enhancing the user's choice-making process.
- Booking Form: Created a straightforward and user-friendly booking form that captures essential appointment details.
- Payment Modal: Developed a simple modal for processing payments post-booking, ensuring a smooth transaction experience.
